Re: Request for Comments on Elective Payment of Applicable Credits and Transfer of Certain Credits, Notice 2022-50

We agree with Just Solutions Collective that the application of direct pay credits to nonprofits serving low-income communities should be streamlined and the Treasury should provide technical assistance to make sure these organizations can apply for the direct pay option. We also agree that the direct payment should be made in a timely manner because these organizations will likely be counting on this funding to get their projects going.
